

## **Lost children**

Please read the following information carefully before your visit to the farm:

### **Before you arrive:**

Encourage children to stay close to you at all times.

Write a contact number on a wristband or tag. These are readily available to purchase online and in stores.

### **On arrival:**

Take a photo of your child on your phone when you arrive in their current clothing in order that you can show a member of staff should they become separated from you.

As Cammass Hall Farm doesn't charge an entrance fee and does not have a gated entry point to the barn please ensure your child understands that should they become separated from you that they should not leave the farm and head back to the car park under any circumstances.

Make them aware of the Cammass Hall Staff blue uniform and tell them that they can approach any member of the team if they become separated from you. Tell them not to approach anybody else.

If you are using the children's play area please make them aware of our superhero Meeting Point where lost children can wait for you.

### **If you lose your child:**

Try to stay close to where you last saw them.

Alert a member of our staff who will be able to assist you. Please provide the staff member with a detailed description or show them the picture of your child.

**Please remember that you have full responsibility for your child for the whole time that they are on site at Cammass Hall Farm.**
